

MasterPieces is considered the premiere American Puzzle Company. We are prepared to produce and manufacture a number of different jigsaw puzzles. We take great pride in our designs, quality materials, packaging and overall presentation. We utilize the thickest puzzle board to produce a premium jigsaw puzzle that is both impressive and delightful to assemble. We use a new random shaped die cut offering incredible precision that makes a fully interlocking puzzle with little dust.

We use environmentally friendly soy based inks and recycled paperboard for both the puzzle and the box it comes in. The box is then shrink wrapped for overall presentation.

We can incorporate almost any image into the box design. You will be provided with match prints for final approval. You will be required to supply the royalty free image in the form of a transparency or digital image.

We require half the total payment prior to production. The remaining balance is due at the time of the first shipment. There will be an eight-week turn around time on the production of your order upon receipt of deposit. Subsequent shipments, if any, will have a 3-week turn around time.

On orders of 1000 or more, at least 504 of the puzzles must ship on the initial order. If desired, Masterpieces will warehouse the remaining product for up to two years at no charge. The remaining product must ship in increments of 504 puzzles until the product is gone.

Orders are F.O.B. Indianapolis, Indiana
